OVERVIEW AND INSURANCE FEATURES

The responsibility of any yacht skipper has always been a heavy burden, but never more so than in today's litigious climate.

Qualifications and experience alone cannot be relied upon by Freelance/Self-Employed Yacht Skippers, to get them out of trouble when disaster strikes, particularly if they are held accountable for the disaster!

The growth of yachting, especially corporate hospitality, corporate regattas, chartering, and the demand for training/tuition that comes with it, has led to a healthy industry for qualified professional Yacht Skippers.

With this growth, however, comes an increase in the exposures that they face, when it all goes wrong.

Underwritten by Travelers Insurance Co. Ltd., Fastnet Marine Insurance Services Ltd., has developed a dedicated liability insurance policy, to satisfy the needs of the self-employed Professional Yacht Skippers working in this sector.

Principal features of the cover provided...

- Legal Liability for loss or damage to the yacht under your command, without any requirement

for you to be named under the Yacht Owner's insurance.

- Legal Liability for loss, damage or injury suffered by Third Parties, including charter guests and tuition students.
- £3,000,000 limit of indemnity available as standard.
- All types of skippers catered for including:
 - a) Freelance
 - b) Delivery
 - c) RYA Instruction/Tuition
 - d) Corporate Hospitality
 - e) Skippered Charter
- Cover for Skippers operating in UK, Northern Europe and Mediterranean as standard, with extensions available on request.
- Annual, fixed price policy, with alternative option for a 'Job Specific' insurance available.
- Competitive premiums, based on the number of days a year that you expect to work, NOT what you expect to earn!
- Underwritten by **TRAVELERS Insurance Co. Ltd.**
